

NEW MEMBERS OF EBA ARMENIA! WELCOME ON BOARD!

New Members

Varazdat Nersisyan **CEO**

Green Rock Management Group manages the implementation of territorial development projects in Armenia. Our ultimate goal is the development of Armenia and creating a competitive market in the region. Social programs are also an important part of the company's activities, areas of historical and cultural value will be preserved and restored, sports, art and other centers operating in the country will be renovated and brought up to international standards.

One of our main projects is the launch of the REDD multifunctional complex, which will have no analogs in Armenia. Nestled in the enchanting city of Dilijan, the multifunctional complex will redefine hospitality and cultural experience in the region. Combining modern architecture, inspiring views, and a minimalistic design, the complex is set to become a true gem and a symbol of excellence in the heart of Armenia. This one of a kind venue spans three levels strategically positioned at varying three heights in the heart of Dilijan that will be connected by a funicular. With completion scheduled by the end of 2025, this architectural masterpiece will become a beacon of innovation and luxury in Armenia, setting new standards of hospitality and captivating guests with its unparalleled offerings.

The second main project is O4 Green Urban Hub, which aims to reconstruct one of the main parks of Yerevan – the fourth one of Circular Park. The park is located in the center of the city but is not a popular destination nowadays due to its unattractive infrastructure. Our vision is to have a modern, urban, eco-friendly and appealing destination to rest and recharge.

Artyom Ghazaryan

General Director

Telcell is one of the leading companies in the field of payment systems, which has been offering convenient and accessible payment solutions to RA citizens and non-locals for 16 years.

Telcell started its activity with the introduction of the terminal network. It would be appropriate to mention that we stand at the roots of the culture of terminal payments. You can hardly find a citizen who has not used our services at least once. It gives us extensive experience and sufficient information about customer needs and financial behavior. All the above lies at the basis of our new vision, which is aimed at creating a modern financial ecosystem - a digital platform where our partner organizations and customers will be able to cooperate comfortably and profitably.

One of Telcell's recent products, Telcell Wallet application has created wide opportunities for the entertainment sector, making the process of selling and purchasing event tickets convenient and efficient.

Another recent product, Telcell Business application, which is a fast and reliable tool for accepting non-cash payments and managing business financial flows, also plays an important role in the company's ecosystem.

The company's technological solutions have also been implemented in the field of public services. Telcell has become the partner of "Yerevan Municipality" in the creation of a unified ticketing system for public transport, providing a system for accepting non-cash payments, the test version of which is already operating in the city transport. In the future, it will improve the payment system of the transport sector both in Yerevan, and across the entire territory of Armenia.

Positioning ourselves as a financial national operator, we have adopted our directions of corporate social responsibility, in particular, to promote the transition to alternative energy, to create new opportunities for business formation and development for vulnerable groups.

We believe that the goal of any company operating in Armenia should be the development of the local market. And for that we need to carry out activities in the conditions of healthy competition and cooperation.

ANNUAL GENERAL MEETING EBO WORLDWIDE NETWORK 2023, BRUSSELS

EBO WWN Annual General Meeting conducted in 2023 had a very intensive agenda, including meetings with senior political contacts in the European Commission, and senior officials from DG GROW, DG INTPA and DG Trade, and also a number of business representatives including BusinessEurope. There was an opportunities to share best practice and discuss activities at a regional level.

Following the General Assembly the EBO Board members have met and allocated responsibilities which have become more specifically defined for the coming year, and also confirmed the appointment of regional co-ordinators for 2023-2024 as well.

This past 12 months has also seen an unprecedented level of growth in the network and engagement with different arms of the European Commission on projects and activities for promoting European business interests globally. EBO network has become much more visible and its role much better understood, such that having many working meetings,

sometimes on a weekly basis, to pursue these avenues. Again, a huge effort being undertaken by colleagues from across the Global network.

EBO Brussels Meeting June 2023

The EBO WWN (European Business Organization Worldwide Network) held its annual meeting on June in Brussels, Belgium. With 49 delegates from 44 countries participating, the event was a success in bringing together representatives from various European businesses Organisations across the world. The discussions included topics like how to best promote and facilitate European businesses in third country markets, strengthening communication channels between the European private sector and EU institutions, and further developing the capacity and partnership between EBOs across the global network.

The meeting programme included several high-profile individuals, including the Head of Cabinets and senior representatives from the European Commission's DG GROW (Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs), DG Trade (Directorate-General for Trade), and DG INTPA (Directorate-General for International Cooperation and Development). The delegates also had the opportunity to meet with peak business organizations like BusinessEurope and global consultancy firm FIPRA, and author Darcy Nicolle.

The meeting also included a series of internal regional meetings, as well as four 'best-practice' workshops on Advocacy & Stakeholder Management, Boards & Governance, Financial Development, and Participation in EU Projects. These workshops enabled delegates to share their experiences and learn from each other, providing valuable insights. By sharing their own approaches, challenges, and successes, the delegates generated new ideas, built new partnerships, and strengthened existing ones, all of which can lead to successful future collaboration. The final activity of the meeting was the General Assembly where the network finances were presented in a healthy state, and the appointment of Board Members for the upcoming year (see further below).

EBO Board Members & Regional Co-ordinators for 2023-2024

- *Jason Collins – Chair (EBO Australia)*

- *Adam Dunnett - Deputy Chair & Head of Advocacy (EBO China)*
- *Geraldine Smeets- Secretary General (EBO Argentina)*
- *Florian Gottein – Treasurer (EBO Philippines)*
- *Johanna Sandberg - Board Member & Head of Visibility, (EBO Rwanda)*
- *Freddie Hoeglund - Board Member & Head of EU Projects (EBO Taiwan)*
- *Cathy Murphy - Board Member & Head of EBO Development (EBO Canada)*

Our network of Regional Co-ordinators for 2023-2024 includes:

- *Diana Sarumova (EBO Armenia) – Europe, Eastern Partnership and Central Asia*
- *Nicolas Soyere (EBO Senegal) - Africa*
- *Marie Louise Norton-Murray (EBO Trinidad & Tobago) - Americas & Caribbean*
- *Edison Bako (EBO Indonesia) - ASEAN*
- *Nuria Sau (EBO Hong Kong) - East Asia & Pacific*
- *John Wilson (EBO Sri Lanka) - South Asia & Middle East*

The Board and Regional Co-ordinators are working with other DGs and consultant teams on projects including the potential creation of new EBOs in markets such as Saudi Arabia, Pakistan and Zimbabwe (to name a few), building professional digital communications platforms for our network, the development and implementation of a programme of EU business events in particular markets, identifying other EU projects which are focused on business development activities in third country markets for possible involvement by individual EBOs, among many others.
